Cristian Giordano

Composer - Sound Designer

Profile

Junior Sound Designer with a strong background in music and sound synthesis, and a focus on game audio and interactive systems.
Conservatory-trained pianist and musician with 16 years of experience, recently specialized in sound design, audio production and implementation.
Currently developing cinematic and interactive audio projects, designing sound systems that shape narrative, emotion and player feedback.

Skills and Tools

SOUND DESIGN & GAME AUDIO

- Sound Design & Game Audio
- Sound design for games and interactive media
- Game audio fundamentals
- Audio implementation concepts (FMOD, Unity)
- Sound synthesis (subtractive, wavetable)
- Cinematic and interactive sound design
- Audio editing and processing

AUDIO PRODUCTION & MUSIC

- Music composition for cinematic media
- Arrangement and harmony
- Mixing and mastering fundamentals
- Frequency balance and dynamic control

TOOLS & SOFTWARE

- FMOD Studio
- Unity
- DAW: Waveform
- Synthesizers: Vital
- Blender
- Adobe Illustrator, Photoshop, InDesign

PROGRAMMING & TECHNICAL SKILLS

- Object-oriented programming principles
- C#, Python, HTML/CSS, JavaScript
- Principles of Human-Centered Design.

Work Experience

SOUND DESIGNER & COMPOSER - PERSONAL PROJECTS

Independent | 2025 - Present

- Designed original sound effects and synthesis-based audio assets for cinematic music projects
- Developed sound design systems focusing on narrative, texture and emotional impact
- Produced, edited and mixed original audio content for portfolio projects

RESEARCH INTERN — VR & EUROPEAN PROJECT (ENVIRONMENTAL)

Event Lab, Barcelona | Feb 2025 – Aug 2025

- *Worked on audio integration and sound design within a VR experimental environment.*
- *Collaborated with cross-functional teams, applying critical thinking to integrate audio systems in immersive research applications.*

RESEARCH INTERN — VIRTUAL HUMANS & MOTION CAPTURE

PERCRO Lab, Pisa | May 2024 – Aug 2024

- Contributed to audio-visual experience design for web-based virtual humans using Italian Sign Language
- Participated in motion capture recording sessions and system testing

PROJECT LEAD — AI SOUND ACCESSIBILITY STARTUP (PRETOTALENT / CYB+)

University of Pisa | Dec 2023 – Jun 2024

- Led a student startup project focused on AI-driven sound solutions for accessibility
- Led a student startup project, building and coordinating a small team, resolving technical and organizational issues in an AI-driven sound accessibility project

Education

MASTER'S DEGREE IN DIGITAL HUMANITIES

University of Pisa, Italy | 2022 – 2025

BACHELOR'S DEGREE IN PERFORMING ARTS AND COMMUNICATION

University of Pisa (UNIPI), Italy | 2018 – 2022

PIANO STUDIES & MUSIC THEORY — AFAM PROGRAMS

Arturo Toscanini State Conservatory of Music, Italy | 2010 – 2017

- Classical piano training with a focus on musical interpretation and performance
- Studies in music theory, ear training and musical analysis
